- The Brain Scoop
- SciShow
- Kids Learning Tubes
- Geek Gurl Diaries
- Mike Likes Science
- Science Max
- SoulPancake
- VSauce

We're aware that schools around the world have closed or are facing closure because of the Coronavirus and we want to help.

We know parents will be looking for ways to continue their children's education during school closures and prevent them from missing out on valuable learning time.

To support you during this period, Twinkl is offering every parent access to all Twinkl resources with a One Month Ultimate Membership, totally free of charge.

Setting this up is really easy to do - go to www.twinkl.co.uk/offer and enter the code PARENTSTWINKLHELPS

If you are an existing Twinkl subscriber on Core or Extra you will be able to use this code to upgrade your current membership. We have also sent codes to schools and teachers so they can access our resources. If you have been given a code by your school already you can use either code.

We'd like your support to get this message out. Please pass this code on to your friends, family and colleagues in affected areas to let them know about this offer of support.

Information about how to use Twinkl with your children can be found in our Parents membership guide. We have also put together information about how to use Twinkl during school closures. This has been written with teachers in mind but contains information you may find useful.

We also have a Facebook group where parents share ideas and discussions:
facebook.com/groups/twinklparentsgroup

Inevitably, children will have questions about the Coronavirus and will want to find out more. You can search 'coronavirus' on the Twinkl site to find related materials to support these conversations. A good place to start would be to look at our posters and activities around good hygiene and handwashing. We also have child-friendly news reports at Twinkl Newsroom based on up to date current affairs including articles around the Coronavirus (these are designed for use with children aged 7 to 11). We've also put together a range of home learning packs.
